How to start MecwaysAsterBridge

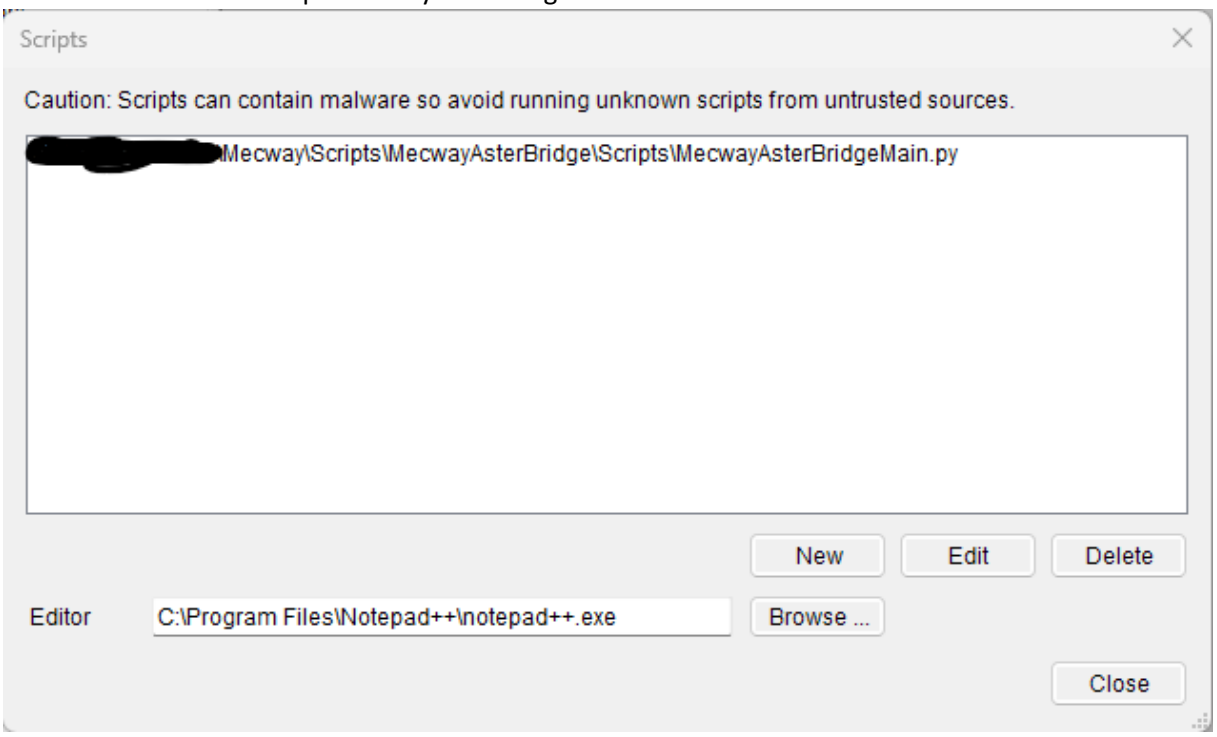

1. Go to: [Download Code_Aster and Salome-Meca – SimulEase]
2. Download the 2025 version from Code_aster for Windows:

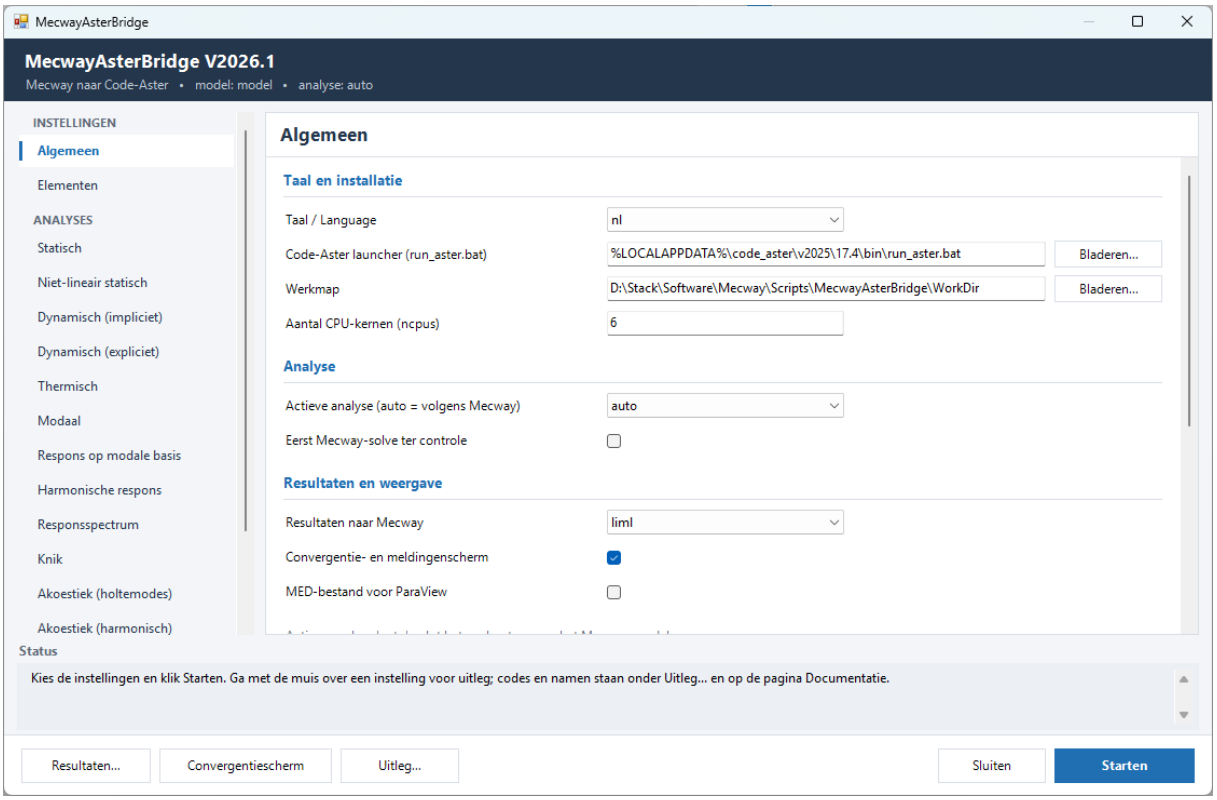

3. Install Code_Aster for Windows
4. Open Mecway and go to Tools/Scripts:

5. Create the link tot he script MecwayAsterBridgeMain:

6. Go to Tools/MecwayAsterBridgeMain and run the model you want. Read through all the tooltips and help-files to learn how to use it. You can find many test Mecway files in: …\MecwayAsterBridge\TestFiles\Verificatie\modellen

Enjoy! (in case of any suggestions or bugs, let me know via Github)
